Aspire Brand Guidelines 2026

Document ID: M01
Department: Marketing
Owner: Priya Nambiar, Head of Brand
Version: v1.0
Effective Date: 2026-09-01
Classification: Public
Compartments: none

1. Purpose

These guidelines keep every Aspire touchpoint consistent, from the product interface to event banners. They apply to all employees, contractors and agencies in Singapore, Ho Chi Minh City and Jakarta. The Brand Studio team, part of Marketing, owns this document and reviews it every year in January. Questions go to the Brand Studio queue in Aspire Hub, with a first response within 2 business days.

2. Brand voice

Aspire speaks like a smart, calm colleague who respects the reader's time. We are a financial company serving founders and finance leads, so clarity beats cleverness. Our voice has four traits.

• Clear: short sentences, active voice, no more than 20 words on average per sentence.

• Confident but humble: we state facts and numbers, never claim to be the best bank or number one without a cited source.

• Warm: we address the reader as you and refer to Aspire as we.

• Precise: always show currency codes (SGD, VND, IDR) and use the exact fee names from the Pricing and Fee Schedule.

3. Logo usage

The Aspire logo consists of the symbol (a stylised upward arrow inside a rounded square) and the wordmark. The minimum clear space around the logo is 0.5x, where x is the height of the symbol. No text, image edge or other logo may enter this zone. The minimum size is 24 px height on screen and 8 mm in print. Use the full colour logo on white or light backgrounds, and the all-white logo on Aspire Navy or photographic backgrounds with sufficient contrast.

4. Colour palette

Colour	Hex	Usage
Aspire Navy	#0B1F4B	Primary brand colour, headlines, backgrounds
Aspire Blue	#2F6BFF	Buttons, links, key highlights
Mint	#2EC4A6	Success states, positive trends, accents
Sunrise Orange	#FF8A3D	Sparingly for campaigns and call-outs, max 10% of a layout
Slate Grey	#5B6475	Body text on light backgrounds

Colour	Hex	Usage
Cloud	#F3F5F9	Section backgrounds

Text must meet WCAG AA contrast (4.5:1). Never place Sunrise Orange text on a Mint background.

5. Typography

The primary typeface is Inter. Headlines use Inter Semibold, body copy uses Inter Regular at 16 px on screen or 10 pt in print, with 1.5 line height. Where Inter is unavailable, such as in email clients, fall back to Arial. Do not use more than two weights on a single page. Presentation titles are 32 pt minimum and body text is 18 pt minimum.

6. Do and do not

Do	Do not
Use the supplied logo files from the Brand Hub	Stretch, rotate, recolour or add shadows to the logo
Write 'Aspire Business Account' in full on first mention	Abbreviate to 'ABA' in customer-facing copy
Use sentence case for headlines	Use ALL CAPS for more than 3 words
Show real product screens with dummy data	Show real customer data in screenshots
Cite the source and date for any market statistic	Promise returns, guaranteed approvals or 'zero risk'

7. Regulatory wording

As a MAS-regulated business, any claim about interest, savings, lending or security must be reviewed by Compliance before publication. Include the standard disclaimer 'Terms and conditions apply' on all promotional material mentioning pricing. Marketing materials in Vietnam and Indonesia must also be reviewed by local counsel.

8. Asset requests and approvals

Logo packs, templates and photography are available in the Brand Hub. External partners must request a co-branding approval from Brand Studio, which is granted within 5 business days. Any use of the brand in paid media requires sign-off from the Marketing Manager.
